

SOLUTION OVERVIEW

ANALYSE

Intelligent analysis of your end-to-end network and your venue environment

The analysis of big data is the driving force behind most intelligent business decisions you make, and often knowing how to obtain and analyse that data can seem impossible.

Ensign offer a suite of analytical solutions, each designed to present you with easily digestible and actionable intelligence through simple to use graphical user interfaces, allowing you to improve efficiency, drive productivity and increase your profitability.

USER EXPERIENCE INSIGHT

User perspective network and application performance analytics. A great user experience is key in achieving your objectives. Constantly measuring your network performance allows you to make pre-emptive remediation decisions, before your business is ever impacted.

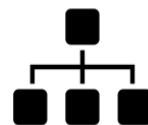

- Peace of mind and less frustration
- User experience with network and apps
- User perspective performance metrics
- Problem pinpointing in real time
- A complete view
- Compatible with any network
- No disruption to your network
- Longevity in your tech investment

HOW IT WORKS

Simple deployment of sensors, with cloud processed data and a straightforward graphical user interface accessed anywhere, anytime. Giving your IT teams and your users the best possible network connectivity experience.

OMNIDATA INTELLIGENCE

A powerful environmental analytics platform which helps venues to clearly understand activity in and around their venues. The platform helps to improve the customer experience through the analysis of intelligent data, enabling venue operators to make educated and informed business decisions, driving efficiency, productivity, and profitability.

Connect. Consolidate data from wireless networks, people-counters and other data sources in a single view

Insight. Venue analytics into customer behaviours and venue performance enabling you make optimisations to improve the customer experience

Engage. Visitor engagement to communicate with your customers in a way you never knew you could, at your venue or when they've moved on
